Handcrafted™ Protective Surface Shield has been scientifically engineered to provide a protective barrier of the surface against dirt, stains, oils, and grime.

**Directions for Use:**  
1. Wipe the surface to be treated with this spray and water.  
2. Completely saturate the surface with this spray. Do not allow the surface to dry.  
3. Apply the spray.

1. Do not use on porous or absorbent surfaces such as wood, stone, or grout.
2. Do not use on surfaces that are already treated with a protective product.
3. Do not use on surfaces that are already treated with a protective product.
4. Do not use on surfaces that are already treated with a protective product.
5. Do not use on surfaces that are already treated with a protective product.

NanoSurface protective finish should be used on all surfaces that require a protective finish. It is a clear, non-toxic, water-based finish that provides a long-lasting, protective layer on your surfaces.

**Directions For Use:**

1. Wash the area to be treated with mild soap and water.
2. Completely remove all wax and oil, and allow the surface to dry.
3. Apply the finish to the surface with a clean, lint-free cloth.
4. Do not use any abrasive pads, scrubbers, or polishing compounds.
5. Wipe off the excess finish and allow the surface to dry.
6. When your finished surface is dry, you may buff the surface with a clean, lint-free cloth.

**Re-Apply** once a month to keep your finish and floor finishers looking like new.

**Ingredients:** Distilled Water, Silicon Dioxide, NanoSurface, Proprietary NanoSurface Finish.
