NanoSurface protective finish should be used on all surfaces that require a protective finish. It is a clear, non-toxic, water-based finish that provides a long-lasting, protective layer on your surfaces.

**Directions For Use:**

1. Wash the area to be treated with mild soap and water.
2. Completely remove all wax and oil, and allow the surface to dry.
3. Apply the finish to the surface with a clean, lint-free cloth.
4. Do not use any abrasive pads, brushes, or polishing compounds.
5. Wipe off the excess finish with a clean, lint-free cloth.
6. When your finished surface is dry, you may apply a second coat.

**Re-Apply** once a month to keep your finish and floor finishers looking like new.

**Ingredients:** Distilled Water, Silicon Dioxide, NanoSurface, Propylene Glycol, Surfactant, Polyurethane, Polyethylene Glycol, and other ingredients.
