

500ML PVC Liquid Detergent Plastic Bottle

Item	500ml PVC detergent bottle with trigger spray
Material	PVC
Capacity	500ml
Application	for cleaning product
OEM	custom color and LOGO printing.

500ml PVC liquid detergent plastic bottle picture

NanoSurface protective finish should be used on all surfaces that require a protective finish. It is a clear, non-toxic, water-based finish that provides a long-lasting, protective layer on your surfaces.

Directions For Use:

1. Wash the area to be treated with mild soap and water.
2. Completely remove all wax and oil, etc. as these will inhibit the bonding process.
3. Apply the finish to the treated area with a clean, lint-free microfiber cloth.
4. Dry as you generally would. There is no buffing, wiping, or polishing involved.
5. Apply it to the appropriate hard surface with a clean, lint-free microfiber cloth.
6. When your finished surface is dry, simply wipe clean with a clean, lint-free microfiber cloth.

Re-Apply once a month to keep your NanoSurface finish looking like new.

Ingredients: Distilled Water, Silicone Dioxide, Nano Titanium Dioxide, Nano Silver Nanoparticles, Nano Zinc Oxide, Nano Zinc Oxide Nanoparticles, Nano Titanium Dioxide Nanoparticles, Nano Silver Nanoparticles, Nano Zinc Oxide Nanoparticles, Nano Titanium Dioxide Nanoparticles, Nano Silver Nanoparticles, Nano Zinc Oxide Nanoparticles.
