FAQs

Is it okay to store whiskey in a plastic bottle?

Yes! It is! our PET plastic bottles are made of 100% virgin material, they are food grade and safe. they don't react with the alcohol, and don't add any taste. keep in mind that some whisky companies are now starting to release some of their expressions in plastic bottles, the cost of PET bottle is lower than glass bottle, because of their producing and shipping cost. so it's okay to store whiskey for a short time. however, it is not recommended to store for a long time, it will affect taste. here was a [two-year experiment](#) for your reference.

Does whiskey melt plastic?

No, it doesn't. all of assumptions are in the short term, because in the long term, there are too many factors, such as environment, temperature and time. if you need to store whiskey in plastic bottles for a day or two, rest assured that the whiskey won't melt plastic.
